github.com/imvdharmesh

Technical Skills

- **Programming:** Python
- **RDBMS:** SQL
- **Visualization:** Matplotlib, Seaborn, Plotly
- **Mathematics:** Statistics
- **Version Control:** Git & Github
- **Tools:** Jupyter, Tableau

Soft Skills

- Interpersonal
- Communication
- Time Management
- Planning
- Problem Solving

Internship

Data Science Intern
Dezignolics Web and Software Solutions
June 2020 – July 2020 (2 Months)

Courses & Certifications

- Machine Learning with Python (Jovian.ai)
- Data Analysis with Python (Jovian.ai)
- Data Analyst with Python (DataCamp)
- Data Scientist with Python (DataCamp)
- **MS-CIT (SYSTEM INFOTECH) - 81%**

Achievements & Activities

- **2nd Rank** SYBSc-IT in College (2019)
- **2nd Prize** Project on IT Dept. Day (2018)
- **Python** Test on 9LEDGE PRO (2020)
- **DBMS** Test on 9LEDGE PRO (2020)
- **Volunteer (National Research Paper)**(2019-20)

Education

Post-Graduation, Data Science · (2020 - Pursuing)
Dcodetech Industrial Training (OPC) Pvt.Ltd, Thane

B.Sc. Information Technology · (2017 - 2020)
K.L.E Society's College, Navi Mumbai
9.02 CGPA

12th Board · (2017)
SANPI College, Pratapgarh, Uttar Pradesh
70.04 %

10th Board · (2015)
SANPI College, Pratapgarh, Uttar Pradesh
80 %

Projects

Scraping Github Topics

- I scraped Github Topics with **name, description,** number of **repositories** and **URL,** here I found **180** different topics**.** I used **Python, Request & BeautifulSoup** library**.**

PYPI GithubUserInfo Package

- I scraped user's Github account details **like name, username, no of repos**, etc. I build a python **PYPI Package** that anyone can install it & by using it retrieve all the details of any user's account**.**
- I used **Python, Request & BeautifulSoup** and other python libraries.

Google Play Store Apps Exploratory Data Analysis

- In this project I analyze apps based on **Content Rating, Category and Reviews, Top Categories, Rating Distribution** and created **a Correlation Map. Family** & **Game** are highest in category, **Event** & **Education** are highest in Star ratings.

India Covid-19 Cases Exploratory Data Analysis

- In this project I analyze the covid-19 **Confirmed**, **Death**, **Cured** cases in Indian states. The most cases are in **Maharashtra**, **Kerala** and **Karnataka** states. The most cases are in month of **April 2021 to June 2021** and recovery rate is more than **97%.**

Rossmann Store Sales Price Prediction

- I predicted sales price by using **Gradient Boosting Machine model (XGBRegressor)** with some **Feature Engineering** & **Hyperparameter Tuning** that gave me more than **98% accuracy** model score.

Sales Revenue

- Created a **Tableau Dashboard** of **Sales Revenue, Sales Quantity** by markets & **Revenue** by year and months since **October 2017 to June 2020** and the **Top 5 Customers** & **Top 5 Products** of Sales.

Declaration

I hereby declare that all the details mentioned above are in accordance with the truth and fact as per my knowledge and I hold the responsibility for the correctness of the above mentioned particulars.
